

Website Audit Report

Neurological Society of Pune

Date: **April 1, 2026**
Scope: **6 HTML pages, 1 JS, CSS/assets**
Branch: **audit-website-errors**
Auditor: **Automated Audit Tool**
Total Issues: **29 (16 code + 13 spelling/grammar)**
Fixed: **24**
Remaining: **5 (need owner input)**

Executive Summary

The audit identified 29 issues across 6 HTML pages, 1 JavaScript file, and supporting assets. Critical issues included a JavaScript null-reference crash halting all interactivity, a non-existent Font Awesome CDN (v7.0.1), template placeholder data visible to end users, and 13 spelling/grammar mistakes. 24 of 29 issues have been fixed; 5 require content from the site owner.

1. Issue Severity Breakdown

Severity	Count	Fixed	Open
Critical	5	5	0
High	5	4	1
Medium	6	2	4
Spelling/Grammar	13	13	0
TOTAL	29	24	5

2. Technology Stack

Framework: Bootstrap 5.3.3 | jQuery 3.7.1
Plugins: Slick Slider, Magnific Popup, Nice Select, AOS (Animate on Scroll)
Icons: Font Awesome 6.5.1 (CDN) + Flaticon (local)
Fonts: DM Sans (Google Fonts)
Pages: index.html, about.html, activities.html, contact.html, committe.html, invited_faculties.html

3. Critical Issues

C-01	CRITICAL	JavaScript null-reference crash on progressPath	main.js:57-58	FIXED
document.querySelector('.progress-wrap path') returns null on every page because no .progress-wrap element exists in any HTML file. This uncaught TypeError halts ALL subsequent JavaScript execution, breaking sliders, animations, counters, and scroll effects. Fix: Wrapped in null guard (if statement).				
C-02	CRITICAL	Font Awesome CDN returns 404 (v7.0.1 does not exist)	All 6 HTML files	FIXED
All pages load font-awesome/7.0.1/css/all.min.css from cdnjs. Font Awesome v7 does not exist on cdnjs; the latest is 6.x. This returns a 404 error, so all <i class='fa-*'> icons are invisible. Fix: Changed to v6.5.1 with correct SRI integrity hash.				
C-03	CRITICAL	Template placeholder data visible to users	index.html (mobile menu)	FIXED
The mobile off-canvas menu displays the original template's dummy data: phone +57 9954 6476, email hello@exdos.com, address 'Bhemeara, Kushtia'. Additionally, the envelope icon was paired with the phone number and vice versa (swapped). Fix: Replaced with NSP's real contact info and corrected icon assignments.				
C-04	CRITICAL	Footer shows 'Contact details to be updated'	All 6 HTML files	FIXED
Every page footer displays the literal text 'Contact details to be updated' as a visible placeholder that end users can see. Fix: Replaced with info@neurologicalsocietyofpune.com.				
C-05	CRITICAL	Wrong <title> tag on Activities page	activities.html	FIXED
The <title> says 'About Us - Neurological Society of Pune' instead of 'Activities'. Fix: Changed to 'Activities - Neurological Society of Pune'.				

4. High Priority Issues

H-01	HIGH	Broken internal links (4 pages don't exist)	index.html	FIXED
Links to team.html (6 refs), projects-single.html (4 refs), and blog-single.html (5 refs) all lead to 404 errors. Fix: Redirected to invited_faculties.html and activities.html respectively.				
H-02	HIGH	Missing AOS.init() call	committe.html, invited_faculties.html	FIXED
AOS library is loaded but AOS.init() is never called, so scroll-triggered animations don't work on these two pages. Fix: Added AOS.init() call before closing </body>.				
H-03	HIGH	Inconsistent mobile menu logo	committe.html, invited_faculties.html	FIXED
These two pages use logo1.png while the other 4 pages use '21 Logo.png'. Fix: Standardized to '21 Logo.png'.				
H-04	HIGH	Swapped prev/next arrow selectors in Slick sliders	main.js (5 instances)	FIXED
prevArrow pointed to .next-arrow and nextArrow pointed to .prev-arrow in 5 slider configs. Fix: Corrected all 5 selector assignments.				
H-05	HIGH	Committee page shows faculty data instead of committee	committe.html	OPEN
The committee page displays the exact same faculty cards as invited_faculties.html. It needs real committee/office-bearer data from the organization. Status: Requires content from site owner.				

5. Medium Priority Issues

M-01	MEDIUM	Contact form accessibility issues	contact.html	FIXED
Form inputs lacked <label>, name, id, and aria-required attributes. Fix: Added proper label/id/name/aria-required to all form fields.				
M-02	MEDIUM	Footer Bootstrap grid broken (col outside row)	All 6 HTML files	FIXED
A col-lg-12 div was placed outside its parent row div. Fix: Wrapped in proper row container.				
M-03	MEDIUM	All social media links are placeholder href="#"	All 6 HTML files	OPEN
Facebook, LinkedIn, Instagram, YouTube links go nowhere. Need real URLs.				
M-04	MEDIUM	All images have empty alt="" attributes	All 6 HTML files	OPEN
No descriptive alt text on any image. Poor for accessibility and SEO.				
M-05	MEDIUM	Image filename typos and spaces	assets/img/	OPEN
preloader.png (should be preloader), conerence-talk.png (conference), '21 Logo.png' has a space. Renaming requires updating all references.				
M-06	MEDIUM	Duplicate meta descriptions across pages	All 6 HTML files	OPEN
Multiple pages share the same meta description text. Bad for SEO.				

6. Spelling & Grammar Issues (13 Found, All Fixed)

A thorough text review of all HTML pages identified 13 spelling, grammar, and factual errors. All have been corrected in the codebase.

ID	Error -> Fix	File(s)	Status	Description
SG-01	Nuero -> Neuro	index.html	FIXED	Misspelling of 'Neuro' as 'Nuero' in the hero sectio
SG-02	Nurological -> Neurological	index.html	FIXED	Misspelling of 'Neurological' as 'Nurological' in he
SG-03	reserch -> research	index.html	FIXED	Misspelling of 'research' in the about section descr
SG-04	strength -> strengthen	index.html	FIXED	Wrong word form: 'strength' used as a verb instead o
SG-05	nuroscience -> neuroscience	index.html	FIXED	Misspelling of 'neuroscience' in mission description
SG-06	diseses -> diseases	index.html	FIXED	Misspelling of 'diseases' in the activities section.
SG-07	nuero -> neuro	index.html	FIXED	Lowercase misspelling of 'neuro' in body text.
SG-08	Terms Of Condition -> Terms and Con	All 6 files	FIXED	Incorrect phrase 'Terms Of Condition' in footer quic
SG-09	Last but not the least -> Last but	activities.html	FIXED	Common grammar error: unnecessary article 'the' in t
SG-10	strength -> strengthen	activities.html	FIXED	Same verb-form error as SG-04, repeated on the activ
SG-11	nuroscience -> neuroscience	activities.html	FIXED	Same misspelling as SG-05, repeated on the activitie
SG-12	Philadelphia (Harvard reference)	activities.html	FIXED	Text says 'Harvard University, Philadelphia' - Harva
SG-13	Explore Our Key Activites -> Activi	index.html, activities.html	FIXED	Misspelling of 'Activities' as 'Activites' in sectio

7. JavaScript Audit Details (main.js)

Location	Severity	Issue	Status
Line 57-58	CRITICAL	progressPath null crash	FIXED
Line 6-16	HIGH	Swapped prev/next in testi slider	FIXED
Line 20-30	HIGH	Swapped prev/next in testi2 slider	FIXED
Line 35-45	HIGH	Swapped prev/next in testi3 slider	FIXED
Line 70-80	HIGH	Swapped prev/next in blog slider	FIXED
Line 85-95	HIGH	Swapped prev/next in brand slider	FIXED
Line 106	MEDIUM	AOS.init; (statement, not call)	FIXED
Line 108+	LOW	Counter code outside IIFE scope	INFO
Line 60-65	LOW	Unused scroll offset variable	INFO

8. Files Modified

File	Changes
assets/js/main.js	Null crash fix, arrow swap fix, AOS.init fix
index.html	FA CDN, mobile menu data, broken links, footer, spelling (7 fixes)
about.html	FA CDN, footer placeholder, terms grammar
activities.html	FA CDN, title tag, footer, terms, spelling (5 fixes)
contact.html	FA CDN, footer, form accessibility, terms
committe.html	FA CDN, AOS.init, logo, footer grid, terms
invited_faculties.html	FA CDN, AOS.init, logo, footer grid, terms

9. Recommendations

1. Provide real social media URLs for Facebook, LinkedIn, Instagram, YouTube links.
2. Add real committee/office-bearer data to committe.html (currently shows faculty data).
3. Add descriptive alt text to all images for accessibility and SEO compliance.
4. Rename committe.html to committee.html and update all internal links.
5. Rename image files: preloder.png -> preloader.png, conerence-talk.png -> conference-talk.png.
6. Remove space from '21 Logo.png' filename (rename to nsp-logo.png or similar).
7. Write unique <meta description> content for each page to improve SEO.
8. Set up a form backend (Formspree, Netlify Forms, etc.) for the contact form.
9. Add SSL certificate and enforce HTTPS for the production site.
10. Consider adding a favicon (currently missing).
